

# SMART ANTI-AGING

Dr. Gantous' busy, loyalty-based practice is the result of his commitment to caring for patients as individuals—not procedures. Because of the highly customized nature of facial surgery, Dr. Gantous spends considerable time with each patient to determine the most viable options for their desired result.

*"I measure my success by the degree of connection I can build with my patients. Mutual trust is the cornerstone of any good relationship."*

ANDRES GANTOUS, MD, FRCS(C)
